

# HOW TO CARE FOR YOUR DOOR

Homeowner Care Guide

Made with the best materials, packed with safety features and thoroughly tried and tested, your door has been built to last. And you can keep it that way by following some simple care tips. Just think of this as your handbook to enjoying many happy years of security and quality. If you want to know more, please contact the people who installed your door.

# What about your back door?

Style. It's all about a great match. A great tie for that suit - or the perfect shoes for that bag. You know when the fit is right.

# Cleaning your door

Here's how to care for each part of your door. To ensure your warranty is upheld, we recommend these to be completed once a month.

Part of the Door	Cleaning	Finishing
Door Leaf	Keep the grime and grit away with warm soapy water ( <b>not washing up liquid</b> ) and wipe with a soft cloth.	
Door Frame	Wash with warm soapy water.	Stubborn stains demand a specialised PVC-U cleaner. Read the cleaner's guidelines carefully.
External Glass	Wash with warm soapy water with a soft cloth.	Finish with a proprietary glass cleaner.
Leaded Glass	Wash with warm soapy water.	Finish with a proprietary glass cleaner. (Oxidisation will naturally occur over time)
Hardware (handles, knockers)	Take a clean cloth and warm water with a mild detergent, then simply wipe clean to a shine.	

# Maintaining your door

Part of the Door	Recommended Maintenance	Notes
Hinges	Keep them at their best by lubricating with a little light engineering oil, e.g. 3 in 1	
Cylinder Locks	Need lubricating with a Teflon based lubricant.	They're sensitive so don't use oil or graphite powder
Hardware (handles, knockers)	Just add a touch of light engineering oil on all moving parts.	<b>Especially important</b> if you live near the coast or by a building or industrial site.

## IMPORTANT

Protect your door from natural thermal distortion. Make sure the top and bottom locking points are engaged by pulling the handle up every time you shut the door.

*Easy to clean,  
and very low maintenance*
